The Fleet Services and Transportation Departments, and Purchasing recommend awarding the contract to the lowest, responsive and responsible bidder, Altec Industries, Inc., at \$153,393.18. This purchase is funded by the Local Streets Fund.

Miller Toyota, at \$36,802.99, for the combined total of \$160,233.52. This purchase is funded by the Capital General Fund and Vehicle Replacement Fund.

- *5-h [19-0191](#)** Three-Year Term Contract with Two Years of Renewal Options for Helicopter Thermal Imaging Systems Service and Repairs for the Police Department (Sole Source) **(Citywide)**

In 2016, Council approved the three-year term contract for the upgrade, service and repair of two Israeli Industries thermal imaging systems (one POP 200 and one POP 300) for the Police Department's helicopters to Stark Aerospace. The upgrades have been completed and routine maintenance and repair of the systems are essential for their continued use. The City issued two bids and there were no responses. Stark Aerospace is willing to enter into another term contract for the service and repairs of the helicopter thermal camera systems.

The Police Department and Purchasing recommend awarding the contract to the sole source vendor, Stark Aerospace, at \$100,000 annually with an annual increase allowance of up to 5%, or the adjusted Consumer Price Index.

- *5-i [19-0190](#)** Contract Amendment and Dollar-Limit Increase to the Contract for the Police Records Management and Field-Based Reporting System for the Purchase of a Replacement Computer Aided Dispatch and Mobile Dispatch System for the Police Department and the Fire and Medical Department **(Citywide)**

The Police Department and Fire and Medical Department currently use a shared Hexagon Computer Aided Dispatch System (CAD) that is over 12 years old and is lacking in some of the technological advances found in a new system. The City's current contract for the Police Record Management System (RMS), with Versaterm, Inc., includes an option for a CAD and Mobile Dispatch System. An evaluation committee unanimously agreed on the recommendation to utilize the CAD and Mobile Dispatch option contained in the existing RMS contract, which will provide the Police Department with a consolidated, single-source system for end-to-end record processing.

The Police Department, Fire and Medical Department, Information Technology Department, and Purchasing recommend the contract amendment and increasing the dollar-limit with Versaterm, Inc., by \$1,615,362, from \$3,065,307 to \$4,680,669, based on estimated requirements.

- *5-j [19-0185](#) Purchase for Replacement Radio/Communications Test Equipment for the Information Technology Department (Sole Source) **(Citywide)****

Information Technology - Communications manages and maintains 3,000 radios for the Police Department, Fire and Medical Department and other City departments. This equipment will ensure all radios are operating within manufacturer specifications, which is vital for reliable two-way radio communications. The over-the-air waveform analyzer will aid in identifying radios that may become unreliable and require immediate servicing. The analyzer does not replace the need for annual preventive maintenance; it helps identify the radios most in need of service.

The Information Technology Department and Purchasing recommend authorizing the purchase from the sole source vendor, Locus Diagnostics, LLC, at \$72,500, based on estimated requirements. This purchase is funded by 2019 Lifecycle Replacement budget and supplemented from the Information Technology Department - Communications operating budget.
